CARROLL COMMUNITY COLLEGE

AFFORDABLE • FLEXIBLE • EXCEPTIONAL

Carroll Community College provides accessible, high-quality educational opportunities to advance careers, enrich lives, and strengthen the community they serve.

TRAIN TO BECOME A Health Care Professional

PHARMACY TECHNICIAN

Carroll's Pharmacy Technician training prepares you to assist pharmacists in the packaging of prescription drugs in health clinics, hospitals, physician's offices, and retail locations. Featuring a virtual component in a computer lab and practical experience in a mock pharmacy, this comprehensive program readies you to sit for one of the national pharmacy technician certification exams needed to become a Pharmacy Technician.

DENTAL ASSISTANT

The Dental Assistant program at Carroll, approved by Maryland State Board of Dental Examiners, teaches you how to use the latest dental software and features practical experience in our modern dental lab, including hands-on training in Oral Radiography. Learn how to prepare instruments and patients, take and develop x-rays, and cast tooth impressions.

PARAMEDIC

Carroll's Paramedic program, featuring state-of-the-art simulation labs, on-site clinical opportunities, and a flexible hybrid curriculum, qualifies you for in-demand employment opportunities for Paramedics in private ambulance companies, hospital emergency departments, fire departments, wilderness search & rescue operations, and more.

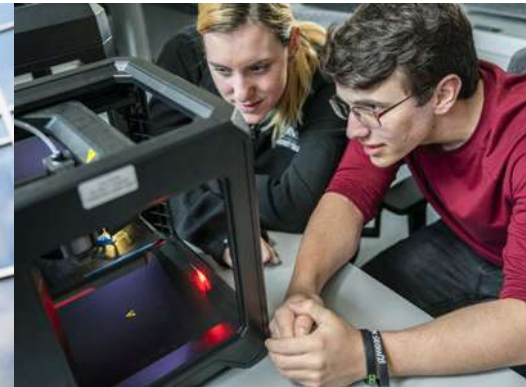

When I was 17 years old, I was diagnosed with Hodgkin's disease. During the many months I had to undergo chemo and radiation therapies, I had some great nurses who made a difference in one of the hardest moments of my life. I decided then I wanted to become a nurse and give back all the love and care that I received. At Carroll Community College, I can finally make my dream of becoming a pediatric oncology nurse a reality.

TRAIN FOR A CAREER IN Technology

ENTERTAINMENT TECHNOLOGY

With the Entertainment industry historically being one of the most stable job providers—even in times of deep economic downturn—now is a great time to consider Carroll’s unique Entertainment Technology program that will prepare you to obtain audio, lighting, and video crew positions for such venues as conference centers, theaters, sports arenas, churches, and theme parks.

DRONE PILOT

The Association for Unmanned Vehicle Systems International predicts more than 100,000 drone-related jobs will be created by 2025 in such industries as agriculture, real estate, insurance, entertainment, and the military. Enroll in Carroll’s Commercial UAS (Drone) Pilot program to get hands-on experience flying a variety of high-end drones in scenario-based missions and learning the software to manipulate drone-captured photos, video, and data.

DIGITAL DESIGN & FABRICATION

Thanks to modern modeling software and manufacturing processes, prototypes and concept models that once took weeks or months to make can now be produced in just a few days at a fraction of the cost. Carroll’s Digital Design & Fabrication program teaches the use of these emerging technologies in conjunction with contemporary design, manufacturing, and production strategies used in such high-growth industries as aerospace, architecture and automotive.

“After twenty years in sales, I got laid off in 2016, and I thought, at 49 years old, what options do I have at this point? I then went and took a tour of the Cyber Lab at Carroll, talked with the Cybersecurity program coordinator, thought it was a good fit for me and six months later I was sitting in a classroom. It was all hands-on, networking with routers and switches, and I just knew, this is what I want to do.

CARROLL COMMUNITY COLLEGE

Offers other great programs & services like...

ADVANTAGE C

Advantage C provides customizable, results-oriented employee development and business consultation. Its programs are tailored to the objectives of each organization it works with, helping them determine their specific needs and ensuring identified opportunities are addressed efficiently and effectively, allowing them to respond to challenges and changes in ways that sharpen their competitive edge.

ONLINE LEARNING

Carroll offers a variety of affordable and convenient online program options to fit your schedule and goals. You can earn industry credentials or even a degree completely online, as well as brush up on your life skills or master a new hobby. Take courses anytime, anywhere in such areas as Business, Technology, Health Care, Skilled Trades, Personal Enrichment, and more.

HONORS PROGRAMS

Carroll is proud to host two selective admissions Honors Programs for our community of high-achieving students passionate about learning.

- **Hill Scholars** allows outstanding students to participate in challenging academic coursework coupled with enriched learning experiences like field trips, guest lectures, and other special events.
- **STEM Scholars** is designed for motivated high school and college students who want to pursue rewarding career opportunities in Science, Technology, Engineering, or Mathematics.

“*A lot of my roles at Carroll helped me strengthen many of the skills that I’m using right now as a business owner. Being at Board of Trustee meetings as Student Government President really helped me with my communication skills, and then as Student Ambassador which strengthened my customer service skills. There are so many wonderful people at Carroll who are willing to help you grow as a person and as a student!*”
